PPE Washer S

Product description

Industrial cleaning machine to wash and sanitize protective personal equipments in steel, composite, rubber, fabric, plastic etc. from grease, residues of combustion gases, toxins etc. in just few minutes to save time and minimize contamination

Features and benefits

- 304 AISI stainless steel front and side panels, wash tank, tank filter and wash and rinse arms
- Equipped with side washing arms in addition to upper and lower wash arms to clean every parts of the PPE
- Door divided in two parts with 180° frontal opening for a better and easier load
- Fault auto-diagnosis system. Self-cleaning cycle. Drain pump and detergent dispenser included
- Pre-arrangements for connection to an automatic detergent dispenser
- IPX5 water protection
- Low noise level
- Simple service from the front

Main specifications		PPE Washer S
Capacity	sets/hour	30
Number of washing cycles/second		4 (180-360-540)
Wash-rinse temperature	°C	50-60
Pressure, min/max	bar	0.5-7

Electric		PPE Washer S
Supply voltage		400V 3N ~
	Hz	50
Default installed power	kW	13
Electrical power	kW	20
Water		
Water pressure (min-max)	bar	0.5-7
Water supply temperature	°C	50
Boiler capacity	l	18
Washing cycle temperature	°C	55-65
Washing tank capacity	l	95
Washing cycle pump power	kW	2.5
Washing cycle electrical elements	kW	7
Hot rinse cycle duration	sec.	20
Hot rinse cycle temperature	°C	84
Rinsing water consumption (per cycle)	l	7
Shipping data		
Weight	net, kg	200
Shipping weight	kg	230
Shipping height	mm	2030
Shipping width	mm	1040
Shipping depth	mm	1040
Shipping volume	m^3	2.2
Accessories		
Stainless steel basket		x
Dimensions in mm		
External dimension, height		1791
External dimension, width		876
External dimension, depth		900
Cell dimension, height		570
Cell dimension, width		670
Cell dimension, depth		710
